# The Soup Bible

## Synopsis

The Soup Bible is an all-in-one guide to creating delicious and satisfying soups, stews, and chilis. The cookbook includes more than 150 recipes, plus a 16-page guide that covers all aspects of soup preparation, including equipment, the history of soup, how-tos hints and tips, garnishing, and a glossary of terms. You will find recipes that can be ready in as few as 30 minutes as well as a slow-cooker chapter. Discover new flavors as you cook your way through seven chapters. Here is a sampling of recipes in The Soup Bible: Classics like Chicken & Homemade Noodle, Minestrone, and Black Bean Soup Exotic flavors such as Pumpkin Soup with Bacon & Toasted Pumpkin Seeds, and Chinese Hot & Sour Soup Hearty chowders, including Bacon Potato Chowder and New England Fish Chowder Vegetarian options, including Mushroom Barley Soup and Lentil & Brown Rice Soup Quick and easy recipes like New Orleans Fish Soup, and Creamy Tuscan Bean & Chicken Soup Slow-cooker selections like Potato & Leek Soup and Beer & Cheese Soup

## Customer Reviews

This cookbook has been the most useful cookbook that I have ever used! I have not made a single soup from this cookbook that was bad. We have had a rating scale for all of the recipes that I make and the only thing that makes the recipes lose points is if it is a kind of soup that one person does not particularly care for in the first place! I would recommend this to anyone that likes to eat soup...or even doesn't care for soup very much. All of the recipes are easy and have basic ingredients. You do not have to go to the store and get a bunch of stuff that you would never use again. This cookbook is the best that I have ever used!

I bought this as part of a wedding gift for some friends and I was really impressed by the good quality and beautiful pictures it had. I love cooking and would absolutely love to get one of these for myself. Of course I can't say one way or the other about whether or not the recipes are any good but this book was quite a bit cheaper here on than it was on her bb&b registry... is the best...

This soup cookbook has just about every soup recipe or some combination thereof in it. They all sound delicious. The recipes are simple and the ingredient list is uncomplicated. All the ingredients can be found in your local grocery store. My biggest problem has been which soup to make next. My family has loved the ones I've made so far, about four different soups. I began with the seafood soup (delicious) no leftovers, then the vegetable beef noodle, then bacon potato chowder, and today hmmm I wonder? Hot and sour soup anyone!

I was looking for soup cook book, this was a score. Has such a great variety of easy to follow recipes and you can tweak them if you'd like. I highly recommend it.

My family gets excited when they see this book out. We've tried many of the recipes and they've all been crowd pleasers. My favorite cookbook!

I am vegetarian and usually dont find good soup recipes. This book isnt just for vegetarians but so far I have been able to substitute vegetarian stuff for meat. My favorite was the french onion soup. Love this book.

This is the perfect soup cookbook for busy lives. The recipes are simple and delicious. We have made over a dozen soups from this book and continue to try new ones. By far this is the most used cookbook in our kitchen! I'm buying another one for a gift.

I'm afraid recipe books are going to go the way of the dinosaurs since it's so easy to get recipes off the internet. But this book gives great ideas all in one place. Great photo's and easy to follow directions for "real" soups - not the kind that you can't find ingredients for. Anyway - I'm very pleased.
