Fascinators: 25 Stylish Accessories To Top Off Your Look

Synopsis

A fascinator is a chic little adornment, not quite a traditional hat but more than a headband, that suits any occasion and any time of day. Style mavens in England are credited with setting off an international fascination with fascinators; this smashing headwear now appears everywhere, donning the heads of celebrities and A-listers on the red carpet to today's fashionable brides, who are tossing aside their traditional veils for fascinators bedazzled with crystals and feathers. This is the first craft book of its kind with how-tos for fascinators, floral crowns, tiaras, and more: 25 in all, plus variations on each project; there are even sweet projects suitable for little girls. Fascinators range from dressy professional to black-tie elegant.

Customer Reviews

What a great book! I have been looking for something just like this, and I'm so happy I bought it. I'm planning a wedding this year and while there are so many things I would be happy to buy and/or order (like dresses for the bridesmaids, etc) I really wanted to do something like this with the bridesmaids, and I know that when we make these together (and it doesn't look all that hard to make your own fascinator) we will treasure these for the rest of our lives. Can't wait to begin making them!

This is a great book for milliners. It is very stylish and offers variations on fascinators. It is one of the best millinery books to come out in a long time. I hope that the author is working on another book.
