The Official High Times Cannabis Cookbook: More Than 50 Irresistible Recipes That Will Get You High

Synopsis

This first-ever cookbook from High Times magazineâthe world's most trusted name when it comes to getting stonedâis the deliciously definitive guide to cannabis-infused cooking. Easy, accessible recipes and advice demystify the experience of cooking with grass and offer a cornucopia of irie appetizers and entrees, stoner sweets, cannabis cocktails, and high-holiday feasts for any occasion, from Time Warp Tamales and Sativa Shrimp Spring Rolls to Pico de Ganja Nachos and Pineapple Express Upside-Down Cake. Delectable color photos and recipes inspired by stoner celebrities such as Snoop Dogg, Cheech and Chong, and Willie Nelson will spark the interest of experienced cannabis cooks and "budding" chefs, whether they're looking for the perfect midnight munchie or just to take dinner to a higher level.

Good cookbook. I am new to cooking with cannabis so this has been a great started guide for me. I am vegan and even though the recipes are non vegan except for one, I will still be able to convert the standard recipes to vegan with no problem.

There are so many great recipes in here. For the weed/culinary lover. In the front of the book there is a easy to understand method to making all your butters, oils, and even glycerine. I "highly" suggest this cookbook. I actually just used this for "danks"-giving the smashed potatoes, glazed turkey, and grandma ganja's Mac n cheese was a hit.

This book is full of information regarding this herb for daily usage and is not just for smoking. I learned the fact that benefit of the Medical side of this herb in baked goods. I am a MS sufferer and the in-depth info has helped with pain, nausea and bad attitudes that comes with MS. Thanks Don't be hater if you haven't tried it.....

I am very happy with this purchase! The recipes are very easy to follow for someone who has never made edibles before. I would recommend to anyone!

Real food for the everyday cannabis user, from breakfast ideas, to lunch dinner, desserts, and even cocktails! It explains how to make the butter and oils used in these delicious foods.

I am glad I bought this, but wish I had bought the Ganga book before this particular book. The Ganja cookbook goes and explains things a little more than this compilation. Realize that this book is based on canna butter and canna oil; everything out from there is about getting good flavors, and good temp. The Ganja book and what makes it even more special is that it talks about the strains of cannabis, about which ones to use for what kind of edibles. It also goes a little deeper in the temperature issues, because if you cook your weed, you're eating very expensive food, with little medical help.

This book is full of great recipes. Its got clear directions and a picture of each recipe. I like it alot.

Very basic recipes. Would be ok for a budding :D chef. All of the basics you need to know are available online. If you are a cookbook collector, its a decent addition to the collection.
