Customer Reviews

These are probably fine GRE flashcards in terms of content, but I had to return them. The text, especially with variables, fractions, exponents, etc., was so tiny it was a strain to try to read them. There was plenty of space on the cards to make the text bigger, Barron just didn't. I recommend Manhattan Prep's various flash card boxes instead (500 Essential Words got me from an 88th Percentile to 97th in Verbal, and that's without the Advanced Words set. They have a math set, too). So, if you like your text consistently above a 5 pt. font, I recommend a different set of flash cards. If you don't care, go for it.

A great starting point to help those lacking in the vocabulary department. I would also recommend the Manhattan Prep flash cards and the magoosh vocab section. Take it from a Math major who

wrote less than 5 essays in his college career and with the help of these flashcards got a 94% score. You can do it, just dedicate the time.

I am still working with them, but I am going to admit that they are helping immensely. The GRE is a bit of a nightmare for me (I haven't done math like this in 20 years). I would not recommend ONLY getting this for GRE prep. There are video courses, books and apps that all help too. But ready-made flash cards are really fantastically helpful.
