Customer Reviews

If you are new to the GMAT and looking for a quicker prep plan, Kaplan Premier is a good book to work with - it provides a good intro to the test (explains the mechanics, basic principles, gets you familiar with the test structure, etc), has solid strategies that you can use regardless of your level, and finally, comes with 5 Adaptive tests. Think of it a starter camera/computer/car/etc - you don't want to start with anything expensive before you know what you are looking for. On the flip side, this book will last you for 3-4 weeks and most likely will only boost your score by 50-75 points. If you want a greater increase (and have 3 months to study, skip this book and pick a bigger caliber package from Manhattan GMAT or Veritas Prep that have a comprehensive overview of everything GMAT-related).~~~ THE GOOD: ~~~* Quite a few practice questions* Solid material with proven Math and Verbal strategies as well as formulas/etc background* 49 pages covering Integrated Reasoning* 6 Full GMAT Tests (5 are in adaptive CAT format on the online and 1 is in a paper format in the book)* Online practice with additional exercises and quizzes - 18 online drills* Much of general info on gmat has been moved into online video format, called Fast Fact Videos; that helps with learning when you have had too much reading for the day* Great value for the money with 6

Full GMAT tests, practice questions, and many online Quizzes* Good amount of coverage for the INTEGRATED REASONING.~~~ THE BAD: ~~~* Errors - I have spotted a few typos and issues with explanations; I suspect there may be a few more* Access to the online components expires after 6 months.
