## Customer Reviews

I went thru the whole book picking and marking the recipes I knew sounded like something I would like. I was impressed with the ease of most of them - and I quickly realized after trying a couple of the recipes that they could be easily tweaked to mimic dishes I have made before - the long way. On the stove top - stirring and trying to avoid burning and sticking to the pot. I love that about the slow cooker - I can leave it alone - don't have to stay home or stay close in order to keep stirring sauces, etc. This is a very basic book that has a lot of tasty dishes. I will continue my way through the book - I make notations right on the recipes if I change or think something should be changed for taste. I really like this book and since I didn't want 10 books, this covers the main food groups, is sectioned by main protein - such as chicken, pork, vegetable, etc. I would recommend this book to anyone but especially someone like me who is new to slow cooking.

I've tried recipes from all the different meat sections and am very pleased with the outcome. If your a busy person these recipes will hit the spot. They are easy to make and you should have most of the ingredients in your cupboard. I think this was one of my best purchases.

This is a beautiful cookbook, there is a colorful picture with each recipe. I have tried the Pork and Beans and it was very good. This is a paperback but the cover is heavy so it tends to lay flat. Taste of Home fans will love this book.

This is the perfect cookbook for get-togethers/pot-lucks with lots of people. The dishes are great for Fall and Winter especially, when the weather is cooler and you want to eat more than just salads and lighter things that you might eat in the Summer more. Some of these dishes are pretty calorie-dense/heavy (not all of them are though). That's not such a big concern when you are sharing these dishes with lots of others. Another option is to freeze some at home for later which works well too. Each recipe has a picture so you can see what the dish looks like served. There's not one dish that doesn't look really yummy. :-) That's before you even get into the taste. This cookbook even has recipes for desserts and drinks. The book is well organized and also provides the name of the person that contributed the recipe, along with their city and state. That's a neat little addition you

don't find in most cookbooks, a little personal connection like that. The back of the cookbook has an easy section for finding different kinds of dishes according to specific ingredients (like potatoes, pulled-pork, etc) or types of foods (barbecue). The recipes provided do have some traditional-type dishes. There are recipes for beef stew and things most people have grown up having. At the same time, there are some international dishes (Thai, French, and Hungarian) that many people might not have tried before. This cookbook has many types of dishes and for not just lunch or dinner. There are even breakfast/brunch recipes that are not the kinds of dishes you see a lot. These recipes are all easy and you can feed lots of people or have lots of left-overs for meals later. All you have to do is put these in a slow cooker and wait until the job is done. These are the kinds of dishes that make your whole house smell really good...as an added bonus. We've found these dishes work great for church fellowship meals, squadron potlucks, neighborhood get-togethers, and reunions with friends and family.

I'll keep it simple. We have several cookbooks for the crock pot. This one has the best recipes of all of them. Buy it and your husband will love you forever!

I bought this book for my brother along with his very first crock pot. He says it's a great book and very easy to follow with just regular food recipes.

I have only used two recipes and loved them both so much that I bought another cookbook for my daughter in law. I don't use the slow cooker too often but will certainly use this cookbook again.

My friend loved this book she does not cook often so it is a big help. Taste of Home books are always easy to use and have delicious food
