I only like three Kaffe Fassett books and this is one of them. Haven't had it long .but have already made a wall hanging from the Teapots quilt. I have bought and resold four of his books so will not buy anymore until I see them inside first

While the graphic patterns in this book are lovely, its main value is in its use of color. If you study the underlying interplay of light and dark, color and contrast, you will see what lifts Fassett's work from craft to art. This is what makes his collections so special. As you recreate the quilts in this book you train your own eye. Use it as a spring point for your own inventions.

Absolutely the most gorgeous Kaffe book yet. Just to look at the fantastic scenery matched to the beautiful quilts is a delight in itself without even creating the quilts. All quilts are shown in great detail and excellent instructions follow the photos for each quilt shown.

This latest in the Kaffe books is a disappointment. There are no new quilt ideas. The colors lack Kaffe's usual excitement.

Kaffe's latest book is a pleasure to read and enjoy the wonderful photos. His quilts are deceptively simple in design but his fabric make them wonderful. He inspires me to try different color choices and techniques when quilting, even though I am a novice!

I really liked the cover quilt, but didn't see much else of interest inside. I would gladly trade the scenic photo shoots in the Kaffe Fassett books for some really interesting quilt patterns, traditional or modern. I want to love these books because the colors are vibrant and the book covers are so inviting, but when you get inside it is a letdown. It turns into a push to buy the Kaffe Fassett Rowan fabric line, and the fabrics are the stars, not the quilts.

Major error in directions for creating quilt "Cayenne" pages 123 - 125. Directions for zigzag piecing are wrong! All my fabric is cut including 65 - 8 1/2" squares and 23 triangles. All of these would have to be reduced in size to fit with the zigzag pieces that are too small because apparently the pattern instructions were never "beta" tested. Strips cut for zigzags should have been cut 5" wide instead of

4 3/4" wide. This messes up everything! When checking publisher's and Kaffe's website, I could find no corrections. However, a "Google" search revealed one site with the correction needed. Thanks Kaffe for the error.

Excellent book; lots of beautiful and very doable quilts. I would have given 5 stars, but many of the templates must be enlarged 200 %, which is too big for a home printer with piecing them and loosing accuracy. It would have been better if the patterns were printed on a pull out page like many of the other quilt books.
