Customer Reviews

I bought these for the July 2016 bar and have only gone through one subject (Con Law) and found a couple errors. This freaks me out as I am using it for this July's bar study and spent over \$70 on them. For example, for the Con Law flashcards, under the "contracts" clause, the flashcard stated that the clause applies to federal governments. I had to rewatch the Chemerinsky lecture and then referenced my Barbri notes which stated: "K clause never applies to federal government." See also:[...]THEN, I pull the card (Card #364) that asks "What does the 15th Amendment provide?" The Answer on the back side: "No, mere acquiesce by the state to the action of a private actor is not enough to convert the private actor's conduct to state action." WHAT?!?! That does not make sense. Some of the flashcards are helpful, i.e., drilling the standards of review. Other cards are so

cursorily applied or written that I am not confident using this for the MBE. I am VERY disappointed because the size of the card and the amount of information on each card was nice. I am glad I had just studied Con Law so I was able to pluck out errors, but the whole point of flashcards is that they do the thinking for you. DON'T WASTE YOUR MONEY AND MAKE YOUR OWN FLASHCARDS OR LOOK TO ANOTHER SET.

I bought this because I wanted a change of pace from Barbri. Also, I wanted to review several subjects, most notably real property before the July bar exam. Frankly, this product is terrible! I got halfway through the real property section, and stopped for fear that It would do more damage than good. Multiple cars contained inaccurate statements of the law, and there are typos on the cards. These cards will confuse you about what you already do know, and will teach you the wrong law. If you have a bar review course, stick to that. If not, get one, or don't rely on these cards.

These cards were helpful for the bar review. Unfortunately, as the other reviews noted, these cards have several misprints. The law is correct but every 64th card has the wrong front printed on the wrong back. NOT what you want when you are trying to pass the bar. It took several hours to figure all these situations out.Good thing was now I really know the correct law because I spent the extra 5 hours double checking then all.However, I looked for alternatives and these are the best there is. So, if you buy them, go and pull the 64th cards. There will be TWO of each (which means you are missing every 60th card).

They're helpful for studying, but be careful. There are numerous misprints in these cards. I have found several cards so far with the wrong question or answer on one side (meaning the numbers are mismatched for one side). Be careful because you can get confused and get a wrong answer.

I bought these flash cards to use along with my bar review program. The flash cards are super detailed, which is both good and bad. I found myself picking out the flash cards that were most important. It would have been nice if they were somehow given a code on how important the topics were. The two stars is mostly because I had numerous flashcards in my set where the front did not match the back. This was disappointing to me, and basically those cards were useless. I wish I had noticed this earlier so I could have contacted the manufacturer.

Just like some of the other reviewers, my flash cards were printed incorrectly and contained

incorrect law. For instance, one of the first questions I read asked what rights the First Amendment grants. The "correct" answers were "speech, press, assembly, petition, association." Apparently, the First Amendment doesn't protect religion! WHO KNEW?!Additionally, some of the answers were tautological, so they weren't helpful at all. One of the questions asked for the definition of the "badges and incidents of slavery." The answer just said that "congress can define the badges and incidents of slavery." ...ok? But has congress discussed this, or...? "Badges and incidents" isn't exactly a commonly used phrase.According to this set, ex post facto laws are exclusively punitive laws that ONLY apply retroactively, AND are prohibited from EVER applying retroactively. There were so many more. I could continue.Quite honestly, I'm really upset that I used these because I "learned" some "new law" while going through them, but now I really question whether it was correct. There's only so much I can cram in my head before this test, and I don't want to fill it with wrong answers. These seem sloppily thrown together, and maybe even written by someone who had access to google, but no knowledge of the law.The Critical Pass flashcards are supposed to be great, and I bought these trying to save some money, but they're absolutely not worth it. You would probably be better off without flashcards entirely than buying these.

These were not that helpful because there were simply too many cards that focused too in depth on the rules for the time I had to study for the bar. While these might be good if you are really unfamiliar with a topic, I would recommend the critical pass MBE set before these. Overall I didn't end up using them much.

Very thorough! Didn't have a chance to go through all 1600 cards before the bar but if you start early and stay dedicated to reviewing them these are very beneficial. Found many typos in the deck though):
