Fabulous Fabulous Fabulous. I have been spoiled by this cookbook and have not been adequately satisfied by a cookbook since this one. Try the meatball recipes. If you buy only one cookbook this should be the one!

I bought this cookbook at the store where I bought my food processor. I thought it was Norene's store, but perhaps she was just affiliated somehow. I was newly married and living in Montreal. I learned to use my food processor using Norene's wonderful book. I tried many of the recipes; they were well tested, easy and helped me to be a better cook.. The recipes never failed, and the little binder stood up on my counter. I still have the same husband, the same food processor, and this little book is still one of my favorites.

Although purchased as a used book, it arrived in perfect condition! It arrived exactly when it was promised- I could not be more pleased! And, the book itself, well, to find a copy was amazing, and I love it!
