July 2 2015 UPDATE: Just need to say that of the 429 reviews I ever wrote, THIS book is the most surprising item I ever ordered. The more we actually USE this, the more clear it becomes that we had become "juicing snobs" even if in the most innocent way. We never thought we knew it all by any means but we DID know we didn't need THIS or any other book with all of our experience. And we were 100% WRONG. The more we use this, the more outstanding it has become. I promise you if there was any one single book you ever want to buy about juicing, please TRY THIS BOOK! I never said this about any product, I don't like to "gush" about anything. But this book is amazing. It is all you need period. This book and the BEST juicer you can possibly afford. I honestly just can't recommend this book enough.-Mike-----PERFECT-Even For The Most Advanced Juicer. This VERY large paperback book is just that and for many reasons. As a juicer for over 40 years and even before good old Jack LaLanne made it famous, I have juiced it all. The key to this book is how it is organized. MY "secret" to enjoying juicing for over 40 years was also simple. NO recipes! I always found that just tossing in a little of this, a little of that was just fine. Always a bit different too. It also helped keep it from getting so monotonous. But eventually the same problem you encounter with hobbies like Aromatherapy rears its ugly head. You simply somehow get lost. I just lose interest and I think it is actually due to the very lack of structure. THIS book is all about structure. That is #1. #2 is a really BIG thing it gives you. Everyday COMMON items we all have in our fridges.
