Some of the recipes are quite interesting. Worth making and branching out to try recipes that one wouldn't normally think.

Great recipes and a great source of knowledge about Salmon! It can actually double as a coffee table book!David D.

Diane Morgan's second book on cooking salmon. I have and value the first book and this is a nice addition.

I enjoy the book and will use it.

Very complicated recipes, that I don't have time to make. I was looking for quick, easy dinner type recipes
