30 Ways To Weave A Potholder: Color Patterns In Plain Weave For The Potholder Loom (Weaving On The Potholder Loom) (Volume 1)

Synopsis

Thirty two- and three-color-based plain-weave patterns for weaving on the potholder loom. Intended for newcomers to the craft as a supplement to the limited instructions available with kits.

Book Information

Series: Weaving on the Potholder Loom

Paperback: 42 pages

Publisher: CreateSpace Independent Publishing Platform; 1 edition (July 30, 2014)

Language: English

ISBN-10: 1500648302

ISBN-13: 978-1500648305

Product Dimensions: 6.8 x 0.1 x 6.8 inches

Shipping Weight: 3.7 ounces (View shipping rates and policies)

Average Customer Review: 3.2 out of 5 stars [See all reviews](#) (32 customer reviews)

Best Sellers Rank: #293,113 in Books (See Top 100 in Books) #118 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Weaving](#)

Customer Reviews

I read the other reviews and bought the book anyway. The patterns are great. I am 68 and wanted to follow patterns at first before trying anything on my own. The directions (along the top and side of the page) are great. Yes, the pictures seem blurry, but I think part of that is the type of loopers she uses. Looks like terrycloth. Mine are from Harrisville and make a neat design from her patterns. Since I couldn't find any other books with patterns for potholders, this one is fine for me!

The book just has some photos of patterns in it. At least half of the patterns are really crappy low-resolution photos that look like they were taken when digital cameras first started coming out. You'd honestly do better just poking around on pintrest or google images and using Harrisville Design's Potholder Pattern Wizard ([...]) to test out pattern ideas you have. Heck, you could even whip up a pattern designer in excel. I bet people have even put one together already.

I bought this for my Kindle; therefore I can also view it on my laptop. The laptop lets me see it in color which is very important, and also it has a bigger screen. This is a good little book with a lot of ideas for making pretty potholders. The photos are a little fuzzy but I don't mind that - you get the idea! The price, especially for the Kindle version, can't be beat. 5 stars! Very glad I got it.

good book for beginners. The tips were good. most of the patterns are for two colors. The photography is terrible but the instructions are clear and the resulting potholders look great if you use quality cotton loops.

I think this is an excellent booklet. There are way more patterns than I thought if when I was avidly weaving potholders as a child, but surprisingly, I made quite a few patterns that are omitted from this booklet. I had NO problem seeing the photos and patterns. How to make these is quite clear. An excellent inspiration tool!

I thought my photography skills were bad...these are terrible. They appear as blurry almost like scanned in images from copy paper. Wow. Just don't don't no.

This book has some great pointers on making potholders. Although, I already knew most of what was covered in this book, I still learned a few things and some new patterns.

Straight-forward instructions, well-organized. Here's a simple craft project that produces a colorful, useful product. What's not to like?
