# The Nerdy Nummies Cookbook: Sweet Treats For The Geek In All Of Us

## Synopsis

The long-awaited first cookbook from the creator and host of the Internet's most popular baking show, *Nerdy Nummies*: a collection of Rosanna Pansino's all-time favorite geeky recipes as well as sensational new recipes exclusive to this book. The *Nerdy Nummies Cookbook* is quirky, charming, and fun, featuring the recipes behind Rosanna Pansino's celebrated, one-of-a-kind creations, as well as beautiful, mouthwatering photographs throughout. It is the perfect companion that you'll turn to whenever you want to whip up a delicious treat and be entertained all at once. And best of all, these treats are as simple as they are fun to make! No need for costly tools or baking classes to create these marvelous delights yourself. The *Nerdy Nummies Cookbook* combines two things Rosanna loves: geek culture and baking. Her fondness for video games, science fiction, math, comics, and lots of other things considered "nerdy" have inspired every recipe in this book. You'll find the recipes for many beloved fan favorites from the show, such as Apple Pi Pie, the Chocolate Chip Smart Cookie, and Volcano Cake; as well as many new geeky recipes, such as Dinosaur Fossil Cake, Moon Phase Macarons, and the Periodic Table of Cupcakes. The *Nerdy Nummies Cookbook* showcases Rosanna's most original and popular creations, and each recipe includes easy-to-follow photo instructions and a stunning shot of the finished treat in all its geeky glory: a delicious confection sure to please the geek in all of us!

Hardcover: 256 pages

Publisher: Atria Books (November 3, 2015)

Language: English

ISBN-10: 1501104012

ISBN-13: 978-1501104015

Product Dimensions: 7.4 x 1 x 9.5 inches

Shipping Weight: 2.3 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (400 customer reviews)

Best Sellers Rank: #1,870 in Books (See Top 100 in Books) #1 in [Books > Cookbooks, Food & Wine > Main Courses & Side Dishes > Garnishes](#) #2 in [Books > Cookbooks, Food & Wine > Desserts](#) #4 in [Books > Cookbooks, Food & Wine > Baking](#)

## Customer Reviews

For those of you who are familiar with Rosanna Pansino's Youtube Channel, *Nerdy Nummies*, you're pretty much getting what you've seen online in print form. This is not necessarily a bad thing,

because this book is really beautiful and easy to follow - the photos are vibrant, the instructions are laid out well, and the desserts really look awesome. The book really revolves around 16 core recipes - apple pie, butter cake, pound cake, white cake, red velvet cake, rich chocolate cake, New York Cheesecake, cinnamon rolls, brownies, macarons, chocolate chip cookies, cream cheese sugar cookies, vanilla almond sugar cookies, lemon sugar cookies, royal icing, and marshmallow fondant. Food items you will need aside from these basic recipes include rice krispie treats, buttercream frosting, premade cookies (such as Oreos, graham crackers, Lorna Doone shortbread), and candy. Lots and lots of candy. An asinine amount of candy even. The recipes themselves are easy to follow and to make - it's really the decorating that is hard. This is not a beginner decorator book for kids - many of the creations will require time, patience, and a very steady hand to execute correctly. If you haven't used a piping bag before, there is a ton of piping to do! Some of the recipes also require special equipment such as Petri Dishes (for the Petri Dish Jello), flasks (for the HP & Mana Potions), candy molds (such as the Rupee shaped or HP candy bars) and plenty of very specific cookie cutters. While you can use the templates on her website [nerdynummiescookbook.com](http://nerdynummiescookbook.com), let's be honest, it will take twice as long to cut each cookie out - you will need to buy the cookie cutters to make these projects.

Another 5 star review! Hopefully this helps you know a bit more what you're getting. If you don't know anything about this book, you'll want to check out the Nerdy Nummies YouTube channel, where she has videos of how to make all of these recipes. The cookbook is simply another convenient format for people that want fast access to some of her more popular recipes. INTO: Nerdy Nummies is the first book created by 'Ro' off of the youtube channel Nerdy Nummies where she makes nerdy style things to eat or drink like from video games, or outer space. Her show has even featured the past CEO of Nintendo and Neil deGrasse Tyson, which is pretty fun. THE SECTIONS: -To start, there's a list of everything you may end up needing. You should probably just get these as needed. -Immediately after that there is a basics section where Ro shows how she makes most of the basic desserts. The 3 I've made so far have been phenomenal, (brownies, chocolate cake, pound cake). You do want to make sure you're using quality ingredients for things like flour and coco, you'll taste them in the end. This section makes the book worth it, it's so hard to find a cook book that consistently has good recipes if you don't have a good recommendation. -After this she gets into more complicated recipes in a few sections such as Math and Science, and Fantasy desserts. These can go from mixing a few ingredients to a bit complicated so chose wisely. -The final sections are things like acknowledgments, conversion

charts, resource guide, cutout templates, and an Index. The final page is a bit about the author.
