Customer Reviews

I like this book in general as the explanation's and exercises are good. But the big problem is that you need to buy lots of extra stuff to be able to use all the exercises provided in the book. There's the audio CDs you need to purchase (175\$!!!), the answer key for the exercises in the book (32\$) and the book by itself. You have a total cost of (60+175+32\$=267\$) and then you're still preparing yourself without a class you might want to take...They should make it more eyepopping that there is no answering key and Audio CD included! (Except for the practice test which are only a few pages)

This book is okay. I deducted one star because it doesn't have enough full practice tests. It has two. Kaplan's TOEFL book has four. I deducted another star because many of the exercise questions seem proprietary to this company but not exactly actual TOEFL test questions. So, they're weirdly more difficult. I prefer Cambridge's TOEFL book to this one. .

I worked with an ELL adult on preparing for the TOEFL, with particular attention to the writing section. She achieved an almost-perfect score on the test. With all the parts, it's a bit pricey, but it's

excellent. . I am a veteran ESL/EFL teacher.

It's complete guide to the toefl test. The bad thing is it doesn't have answer keys. You should buy extra that is really expensive.

There are a total of 13 CD's in this package and they all bring variety of topics relevant to different sections of TOEFL which give the learners a better understanding of what to expect on the exam. These CD's are organized in such a fashion to introduce the learners to not only diverse subjects/topics that they face once they step into the university environment, but also the learners will be exposed to people with different English accents. The author has done a magnificent job of putting these CD's together in such a way to make them relevant to this test. These CD's are essential part of studying for TOEFL towards obtaining a better grade and I definitely recommend it to anyone who is preparing for TOEFL.

(I usually don't leave a review. But it is so good, so I want to share the seller with other customers.)I ordered a VeryGood used-book.Even if it doesn't says it's a LikeNew, it is just like a new one.there are only little marks not bothering for studyingLove it. thanks to the seller! :)Again, thank you! It is the first time that a used-book, which I ordered from , give me satisfaction

teacher asked me to buy it. it is a compulsory textbook. even though i have scored high in the test.

Very good condition, came with the CD
