This is a great cookbook that actually our newlywed daughter found and suggested. The recipes are so easy and basic yet very good and even some are elegant. The ingredients are things you basically already have or keep and every single thing I have tried so far is good which is really rare in a cookbook. It's got a great variety and great for someone who doesn't have a lot of time for preparation. Thanks Campbells!

This cookbook has a lot of fast easy recipes that taste great. I keep this in my office so I can grab stuff for dinner in the way home. It does have lots of store bought ingredients but they are inexpensive, easy to find, and go on sale often. Great book!

Bought this for a Xmas present to go with a slow-cooker for my daughter. Looked thru the 1st 12 pages & already found 4 recipes I'm going to make. Love it so much I'm ordering another 1 for myself right now. The 1st chapter, "4 ingredients or less" is no joke. What great & easy ideas using ingredients that are already in most kitchens. The recipes sound fabulous. My mother-in-law could really use this. Even an already good cook will find so many uses with this. Wonderful too if you entertain or have kids. How can you go wrong for about \$12????

This book has 3 sections: 4 Ingredients or Less, Casseroles and One Dish Meals, and Slow Cooker Recipes. The recipes are all super simple, and this would be great for someone just starting out cooking. Lots of them include a can of soup in there, which might seem to get repetitive, but there is a pretty wide range of tastes throughout. Some of these are pretty basic, like cooking rice with chicken broth, but some are ones I'd never think of. My favorites: Shrimp and Corn Chowder, Creamy Pesto Chicken and Bow Ties, and Cornbread Chicken Pot Pie.

This cookbook (3 Books in 1) is a wonderful cookbook. I have already made several of the recipes and they were great. Finally, I have a cookbook that calls for ingredients that I have in my kitchen; unlike most other books I've ordered. I am NOT a chef and do not have a kitchen full of spices and items I've never heard of before; I just wanted a simple basic down home book of easy recipes and this one is it. I would highly recommend this cookbook if you want simplicity in cooking and ingredients used.

This book is full of easy and quick recipes, with most of them utilizing staples already on hand. Almost everything is made with some kind of Campbell's soup, which provides more flavor and the right amount of moisture for proper cooking. This was a lucky find for me. I go to this cookbook more often than any other on my shelf. It's great for busy people.

Great cook book for beginners! I am in college and this cookbook has saved my life a couple times. I also live with my boyfriend and this cookbook has many great recipes that are easy to make for just 2 people with not a whole lot of ingredients. Most recipes are cheap as well. Great book. I can see us using this many many times in our future.

Lots of pictures. The book is organized nicely - I would buy for a friend or family member. Great deal for the 3 books in 1.
