WHAT A BEAUTIFUL BOOK!! The photos are amazing and the recipes are easy and delicious ! The chicken with fennel and tomato casserole is one of our family's favorites. I plan on cooking my way through the book.

I'm really enjoying this casserole cookbook, by Betty Rosbottom. The fact that she uses fresh ingredients is wonderful, no more opening cans of processed food! The variety and delicious recipes are what I'm looking for in my diet. Betty really knows food, and what you would want to cook for your family.

I've tried 4 recipes, all of them very good to excellent. Rosbottom mixes a variety of ingredients to

produce complex flavors. Dishes are also very attractive with toppings of toasted crumbs, parsley, etc. my family has enjoyed them all.

A great cookbook. I am a single who likes to eat well and doesn't mind cooking, but it must taste good and be excellent for leftovers - no issues in that regard with this book. Yummy

I am love love loving this book. So far I have made six of the recipes, each from a different category (chicken, seafood, vegetarian, etc). They all have the appeal of one dish cooking, without the yucky processed short cuts. I especially love how many dishes I can put together earlier in the day, and then throw in the oven right before dinner. I can have the kitchen totally cleaned up, allowing us to focus on family time during and after dinner. These recipes are just the right combination of healthful and indulgent ingredients, so you feel good about what youre eating, and everything tastes really good, too. Couldn't be more pleased; looking forward to checking out more of Rosbottom's efforts.

Every recipe I've tried so far has been a winner! Some have been a bit complicated, but the results have been worth the effort. Many are geared for large numbers of servings so you're pretty sure to have leftovers. Ms. Rosbottom's hints and notes are well done; I also like the fact that she is very clear about what can be prepared ahead of time and how to adjust the cooking times to accommodate that.

I have only tried one recipe, and it was so badly measured I'm afraid to try others! I made the New Orleans Shrimp and Andouille Jambalaya... not only did the mixture NOT fit the casserole (by about 40 oz!!! honestly!), but the rice never cooked. ICK! Did she actually have people make these recipes before printing them in the book?!?! Perhaps there is a typo (or several) in this reipcpe...where would I find the information about that?

Betty Rosbottom's cookbooks are great. From the pictures to the way it is laid out. Grocery list and tips on what to serve along side the dish with the recipes for them also. Also descriptions on how she came up with the recipes. Some of the recipes are hers or from a restaurant she visited. Even from friends and other people in the business. I have enjoyed all the recipes I have tried in all her books.
