I am not a cook. But I do eat and have to feed my family. Yes there are recipes online but I like to have a book to leaf through, one with pictures to show how delicious the prepared dish looks. These seem to be tried and true recipes submitted by ordinary people who can cook. I've had the book a week now and have made three recipes. Each came out perfectly. They were easy with normal ingredients. No diet recipes here folks, just good comfort food.

This is a great book for casseroles, every one has a great picture and a shared review of someone who has found the particular recipe perfect for their family or a church supper or just the crowd coming over after a football game. I especially like the fact the print is clear and easy to read. And the hints and suggestions for making, making it easier.

Easy recipes for new cooks or seasoned cooks. Not sure what to prepare for dinner, Easy, just look up main ingredient and there will be several recipes. I have shared book with several and I have prepared several recipes and shared with neighbors. They love them all

You cannot beat Taste of Home recipes. I get their magazine and have purchased other cook books of theirs. Winning recipes every time. This book has TONS of casseroles that I am so excited to make. I have made several already, all have been delicious. This cook book has a wide variety of casserole recipes - something for everyone!

Because casseroles just get better and better and reheat so well! These recipes are fantastic and look really good when presented at table. It looks like a lot more work went into them than actually did. And the ingredients are relatively healthy as opposed to fried foods and such. Another good one for the bachelor kitchen as portions can be packed for lunches next day for work.

Okay, what I like about this book, when ya have those days when there's not a lot of time, your drained, and don't feel like cooking from scratch. You pull this book, out & use items, you already have in the pantry. I don't think most people want to come home from work, cook dinner from scratch, clean the house, take care of everything that needs to get done everyday. This is middle of the road, you can get most dishes done, in an hour. Just provide a nice healthy salad on side.

What can I say I'm addicted to these cookbooks! I own roughly 6 of the Taste of Home cookbooks and love them all. The recipes always taste great and I never have to worry when making something new if my family is going to like it (including my 2 year old daughter). The ingredients are simple and typically things you can stalk up on for future recipes (like canned goods). There are a variety of serving sizes throughout the recipes so it's easy to find something to feed a crowd or our family of three. Keep up the great work Taste of Home!

I bought this and asked my 11 year old to find recipes he might like. Then I asked him to make a

grocery list. He was excited to try making some dishes on his own, and all four recipes he's tried so far are keepers!
