Quick-Shop-&-Prep 5 Ingredient Baking: Cookies, Cakes, Bars & More That Are Easier Than Ever To Make

Synopsis

Standout Baked Goods from Scratch the Easy Way There's no denying that freshly baked homemade treats are the best, but these days it can be hard to find new recipes that don't take all day to make and don't have long lists of specialty ingredients. Who has the time or money? Quick-Shop-&-Prep 5 Ingredient Baking has the answer with 80 incredible new and easy desserts. With only a 5-minute shopping trip and a few simple steps, you'll have a warm, delicious homemade goody to share with family and friends. Just imagine the smell of Maple Nut Coffee Cake or the first salty sweet bite of Salted Butterscotch Cheesecake Bars. Then there's the "mmmm" that comes after a forkful of warm Weeknight Fudgy Brownie Cake. And think of the pride you'll feel when your friends gush over your fresh Vanilla Bean Cake with Blueberry Whipped Cream. All of these with only 5 ingredients or fewer? It's true! Each incredible recipe needs only 2, 3, 4 or 5 simple ingredients beyond the basic baker's pantry, saving you time and money at the grocery store. Bakers with years of experience will be surprised to see how delicious these simple treats are; and inexperienced bakers will be pleased to learn that these desserts are even better than a boxed mix, but not any harder to make from scratch. With Quick-Shop-&-Prep 5 Ingredient Baking, you'll bake something delicious and full of love for your family, your friends, a special occasion or just because you can.

So far, made only the raspberry muffins with oat meal (not the quick kind) and they were delicious....next, the ginger lemon scones...Seems exactly how I ordered the book to begin with...few ingredients, but fantastic outcomes, plus the author even responds to questions. How

great is that?

I love this book, there's a lot of good recipes, there's only one that I don't like it, I made it twice and never came out as expected but this must be me! The muffins are delicious and the cookies too.

Even though I'm a culinary school graduate, I'm not always 100% prepped in the kitchen and when that sweet tooth hits, I love how this book can help me bake pretty much anything (if I have a well stocked pantry - and that I always do!). I made the dulce de leche shortbread bars and loved them - super simple yet impressive looking and my guests loved the layers! Perfect book for both the skilled baker and the barely can crack an egg baker!

This book is the perfect companion for seasoned bakers as well as those of us who aren't, but still love baking delicious homemade treats for our families. The images are beautiful and the instructions are incredibly easy to understand. Jennifer starts with a basic baker's pantry of ingredients and then adds a few additional ingredients to create some serious masterpieces. I'm super excited to add this to my collection. So far, everything I've made from this book has turned out perfectly.

The concept of this cookbook is outstanding, utilizing baking pantry staples plus up to 5 ingredients for a variety of desserts. The recipes are very straightforward and approachable, and give classic desserts a delicious, modern twist. This book is proof that baking doesn't have to be difficult, and most of the ingredients are already on hand!

Best recipe book because I didn't have to go buy a hundred different ingredients. The first day I got this book I made 2 easy (and delicious) recipes with ingredients I already had in my pantry!

I am not a fantastic baker but this cookbook really makes me look like I know what I'm doing. Ha! Easy to understand and there is a picture with every single recipe. I love that! This is my kind of baking. Not too many ingredients and none of them are hard to find. This will definitely be a go-to cookbook for me!

This book is a must-have. I always have the baking basics around and this is so helpful to give ideas of how to take them and create SO many beautiful treats. I love it!
