Cryptography And Coding (The Institute Of Mathematics And Its Applications Conference Series, New Series)

Synopsis

This new title is based on papers presented at The Conference on Cryptography and Coding, the first such conference to bring together mathematicians working in both cryptography and coding theory. It is a "hands-on" volume that provides a state-of-the-art account of mathematical research in these closely inter-related areas, one that will enable readers to produce and store information efficiently, securely, and cost-effectively.

Book Information

Series: The Institute of Mathematics and its Applications Conference Series, New Series (Book 20)
