All of Michael's jalapeno recipe books are wonderful. This one has lots of great ideas for stuffed jalapenos and poppers. We eat a lot of jalapenos at my house and my husband particularly loves stuffed jalapenos. I am always looking for new ways to cook them. This book is filled with lots of

ideas. I usually cook mine on the grill but am planning to try some of his baked poppers and "armadillo eggs". There are also recipes for stuffing other types of peppers, including bell peppers and many other types of peppers. I have been looking for more good recipes for Poblano peppers and there are some that look tasty in this book.

This is the book to have if you love stuffed peppers!! We always have a big garden and lots of peppers. We dry some and grind them in a blender into a pepper powder that we use in stews and on our food. This book has many wonderful recipes that we used to make stuffed peppers. I think my favorite is the bacon sausage and cheese stuffed jalapeno poppers. This summer I want to try the jalapeno happiness dessert.

The book was everything I needed, great recipes, easy to follow and the ones I've already made were yum, yum, yum

It had a lot of fun recipes. The names for some of these cracked me up.***** a little disappointed that there were NO PICTURES at all***** I just assumed it would have. but overall a fun book to have.

This is the book I have been looking for a long time. It covers a wide range of recipes for just about any type of pepper that a person has the nerve to try. This is a very well written book that pepper popper fans will love.

I purchased this along with a stainless chili pepper roasting rack for my dad for Christmas--he is the grill pro in our family. He absolutely loves it and has already picked several recipe ideas for Super Bowl Sunday. Great book!!

Bought this as a gift for my dad, he loves to grill and I know he loves jalapeño poppers so I figured he would enjoy this!He made us one of the recipes, I believe it was called "Atomic Buffalo Turds", they were amazing! Can't wait to see what other recipes come from this one :)

I get a lot of cookbooks that I collect recipes out of and if I get 5 or more that I really want to try then that's a good book. When this book arrived and I looked through it and I decided that the only thing I could do with it is to write a post it note for the cover that I didn't copy a single recipe. I added that

the whole book is a keeper. If you in any way like stuffed peppers then you have to have the best book on them I've ever seen. Do not hesitate, get this book....Tim
