# SharePoint Online From Scratch: Office 365 SharePoint From Basics To Advanced

## Synopsis

SharePoint Online from Scratch gives hands-on instructions on how to practically make use of a SharePoint tenant for an organization, or parts thereof. It is almost entirely no-code. Even if SharePoint Online from Scratch primarily is a handbook, explanations on how SharePoint works are mixed into the instructions. SharePoint Online is an ever changing platform, so the author's aim is to give a deeper understanding of how to take advantage of SharePoint at the same time as giving practical advice.

## Customer Reviews

Just started by SharePoint journey and found this book to be exceptional and I am only 25% through it. You will not find a more up-to-date resource! I also find the online tutorials very helpful in understanding and reinforcing key concepts. This book pays for itself by many multiples.

Excellent - easy to follow and well explained features and functions to implement Sites.

Excellent explanations and good pacing.
